British Telecommunications Engineering

INDEX
VOLUME 6
(April 1987–January 1988)

A

Access System for TXE2 Exchanges, Remote 23
ADAMS, J. L., LITTLEWOOD, M., and GALLAGHER, I. D. Network Evolution Using Asynchronous Time-Division Techniques 95
Address to IBTE Martlesham Heath Centre Growing Up in an Information Age 154
Advances in High-Speed Phosphor Printing 186
Alarms in the Digital Transmission Network, RASE—System for Recording and Scanning 232
ALE—Testing to the Customer Interface 50
Associate Section, Institution of British Telecommunications Engineers 282
Asynchronous Time-Division Techniques, Network Evolution Using 95
ATD Techniques, Connection-Control Protocols in a Fast Packet-Switched Multi-Service Network Based on 192
Automatic Exchange at Epsom, The Strowger 84
Automatic Radiophone, System 4 28
Automatic Scanner for Monitoring Traffic Overflow Meters—TOMAS 132
Automatic Switching, Epsom Telephone Exchange: Conversion to 86
Automatic Telephony in the UK, 75 Years of 82

B

BAILEY, W. J. The Strowger Automatic Exchange at Epsom 84
BAILEY, W. L., and JOHNSON, D. E. An Electronic Incoming Coder System for Mondial International Switching Centre 38
BAKER, G. T., and REARDON, E. S. Routining of Metering-over-Junction Circuits 268
BETT, M. Beating the Competition—Organising to Win Keynote Address to the Institution of British Telecommunications Engineers 2
Beating the Competition—Organising to Win Keynote Address to the Institution of British Telecommunications Engineers 2
Book Reviews 72, 141, 205, 285
BOYD, W. D. 19 GHz Radio System for Rathlin Island 70
British Telecom Press Notices
British Telecom to Provide Network Management for Government Telecommunications Network .. 77
BT Invention Licensed for Commercial Production 277
Business Centres Mark New Customer Policy .. 277
Databank Card 76
Electronic Yellow Pages Goes Live 76
IBM-Compatible Data Services 277
LINK Network Goes Fully Live 77
National Computer Network to Streamline International Trade 212
Radiopaging by Satellite—A Trial Service 212
Translating Speech by Computer 212
British Telecom at TELECOM 87 206
Broadband Data Networks, Status Monitoring on Cable TV and 163
Broadcasting: Challenge of the Future Frequency Spectrum Management 202
BUTLER, J. S., and VICK, R. ELECTRA Mark 2—A Codemark Checking Machine 181

C

Cable-Television Network, On-Demand Interactive Video on the British Telecom Switched-Star 17
Cable TV and Broadband Data Networks, Status Monitoring on 163
Cables from the River Tyne, Recovery of 68
CALLENDER, R. W. Epsom Telephone Exchange: Conversion to Automatic Switching 86
CCITT Signalling System No. 7 in British Telecom's Network 160
CHAMBERLAIN, P. R., and ENTWISTLE, W. Remote Access System for TXE2 Exchanges 23
Check Procedure into the 2048 kbit/s Basic Frame Structure, Introduction of a Cyclic Redundancy 218
Circuits, Routining of Metering-over-Junction 268
Codemark Checking Machine, ELECTRA Mark 2—A 181
Coder System for Mondial International Switching Centre, An Electronic Incoming 38
Competition—Organising to Win, Beating the Keynote Address to the Institution of British Telecommunications Engineers 2

Computer Systems and Methods of Mitigating Them, Difficulties of Specifying Users' Requirements for 60
Computerisation of Frame Management in the Digital Trunk Network, An Introduction to the Digital Specific Equipment Assignment System and the 238
Connection-Control Protocols in a Fast Packet-Switched Multi-Service Network Based on ATD Techniques 192
Conversion to Automatic Switching, Epsom Telephone Exchange: 86
Customer Interface, ALE—Testing to the 50
Cyclic Redundancy Check Procedure into the 2048 kbit/s Basic Frame Structure, Introduction of a 218

D

Data Networks, Status Monitoring on Cable TV and Broadband 163
DAVIES, C. G., and FRETTEN, K. G. CCITT Signalling System No. 7 in British Telecom's Network 160
Derived Services Network, The Digital 105
Designers, A New Reliability Tool for 127
Developing Countries, The Impact of Telecommunications on Economic Growth in 35
Difficulties of Specifying Users' Requirements for Computer Systems and Methods of Mitigating Them 60
Digital Derived Services Network, The 105
Digital Specific Equipment Assignment System and the Computerisation of Frame Management in the Digital Trunk Network, An Introduction to the 238
Digital Transmission Network, RASE—System for Recording and Scanning Alarms in the 232
Digital Transmission Network, Tester 351B—A New Performance Tester for the 120
Document Quality—Inspection 250
Duct Laid Across the River Weaver 138
DUNN, G. An Introduction to the Digital Specific Equipment Assignment System and the Computerisation of Frame Management in the Digital Trunk Network 238
DUNN, G., and SMITH, J. T. Tester 351B—A New Performance Tester for the Digital Transmission Network 120

E

Economic Growth in Developing Countries, The Impact of Telecommunications on 35
ELECTRA Mark 2—A Codemark Checking Machine 181
Electronic Incoming Coder System for Mondial International Switching Centre, An 38
Emergency Services, 999 58
Encryption System, LEKTOR 257
ENTWISTLE, W., and CHAMBERLAIN, P. R. Remote Access System for TXE2 Exchanges 23
Epsom Telephone Exchange: Conversion to Automatic Switching 86
Epsom, The Strowger Automatic Exchange at 84
EVANS, D., and SPICER, C. J. Advances in High-Speed Phosphor Printing 186
Events up to TELSTAR, 1962 170
Evolution Using Asynchronous Time-Division Techniques, Network 95
Exchange at Epsom, The Strowger Automatic 84
Exchange: Conversion to Automatic Switching, Epsom Telephone 86
Exchanges, Remote Access System for TXE2 23

F

Finance, Telecommunications and International 265
Frame Management in the Digital Trunk Network, An Introduction to the Digital Specific Equipment Assignment System and the Computerisation of 238
Frame Structure, Introduction of a Cyclic Redundancy Check Procedure into the 2048 kbit/s Basic 218
Frequency Spectrum Management Broadcasting: Challenge of the Future 202
FRETTEN, K. G., and DAVIES, C. G. CCITT Signalling System No. 7 in British Telecom's Network 160
Future, Broadcasting: Challenge of the Frequency Spectrum Management 202

G

GALLAGHER, I. D., ADAMS, J. L., and LITTLEWOOD, M. Network Evolution Using Asynchronous Time-Division Techniques 95
GOODWIN, P. J., and HALTON, J. M. Automatic Scanner for Monitoring Traffic Overflow Meters—TOMAS 132
GREEN, D. Recovery of Cables from the River Tyne 68
Growing Up in an Information Age Address to IBTE Martlesham Heath Centre 154

H

HALTON, J. M., and GOODWIN, P. J. Automatic Scanner for Monitoring Traffic Overflow Meters—TOMAS 132
HAMMOND, S. W., OCKENDON, T. K., and LAIRD, J. L. Status Monitoring on Cable TV and Broadband Data Networks 163
HARRISON, N., and MCLINTOCK, R. W. Introduction of a Cyclic Redundancy Check Procedure into the 2048 kbit/s Basic Frame Structure 218
HORNSBY, G. H., PRICE, G. R., and MARSHALL, J. F. ALE—Testing to the Customer Interface 50
HOUGH, J. C. Duct Laid Across the River Weaver .. 138

I

IBTE Martlesham Heath Centre, Address to Growing Up in an Information Age 154
Imaging System, Video Map and 139
Impact of Telecommunications on Economic Growth in Developing Countries, The 35
Incoming Coder System for Mondial International Switching Centre, An Electronic 38
Information Age, Growing Up in an Address to IBTE Martlesham Heath Centre 154
Inspection, Document Quality— 250
Institution of British Telecommunications Engineers 71, 149, 208, 278
Institution of British Telecommunications Engineers, Associate Section 282
Institution of British Telecommunications Engineers, Keynote Address to the Beating the Competition—Organising to Win .. 2
Interactive Video on the British Telecom Switched-Star Cable-Television Network, On-Demand 17
Interface, ALE—Testing to the Customer 50
Intermail 262
International Finance, Telecommunications and 265
International Switching Centre, An Electronic Incoming Coder System for Mondial 38
Introduction of a Cyclic Redundancy Check Procedure into the 2048 kbit/s Basic Frame Structure 218
Introduction to the Digital Specific Equipment Assignment System and the Computerisation of Frame Management in the Digital Trunk Network, An 238

J

JOHNSON, D. E., and BAILEY, W. L. An Electronic Incoming Coder System for Mondial International Switching Centre 38
JOHNSON, E. A., RUNGE, B., and REDMILL, F. J. Document Quality—Inspection 250
JONES, A. W. RASE—System for Recording and Scanning Alarms in the Digital Transmission Network 232

K

KARIMZADEH, M., and KEY, M. Connection-Control Protocols in a Fast Packet-Switched Multi-Service Network Based on ATD Techniques 192
KERR, G. W. On-Demand Interactive Video on the British Telecom Switched-Star Cable-Television Network 17
KEY, M., and KARIMZADEH, M. Connection-Control Protocols in a Fast Packet-Switched Multi-Service Network Based on ATD Techniques 192
Keynote Address to the Institution of British Telecommunications Engineers Beating the Competition—Organising to Win .. 2

L

LAIRD, J. L., HAMMOND, S. W., and OCKENDON, T. K. Status Monitoring on Cable TV and Broadband Data Networks 163
LAWSON, J. S. R. Events up to TELSTAR, 1962 .. 170
LEAKEY, D. M. Some Possible Trends in Public Telecommunications Switching 88
LEKTOR Encryption System 257
Letter Mechanisation, Optical Character Recognition System in 225
LITTLEWOOD, M., GALLAGHER, I. D., and ADAMS, J. L. Network Evolution Using Asynchronous Time-Division Techniques 95

M

Machine, ELECTRA Mark 2—A Codemark Checking 181
MCLINTOCK, R. W., and HARRISON, N. Introduction of a Cyclic Redundancy Check Procedure into the 2048 kbit/s Basic Frame Structure 218
Map and Imaging System, Video 139
MARSHALL, J. F., HORNSBY, G. H., and PRICE, G. R. ALE—Testing to the Customer Interface 50
Martlesham Medal for Pioneer in Opto-Electronic Technology 57
Mechanisation, Optical Character Recognition System in Letter 225
Metering-over-Junction Circuits, Routining of 268
Meters—TOMAS, Automatic Scanner for Monitoring Traffic Overflow 132
Mondial International Switching Centre, An Electronic Incoming Coder System for 38
Monitoring on Cable TV and Broadband Data Networks, Status 163
Monitoring Traffic Overflow Meters—TOMAS, Automatic Scanner for 132
Multi-Service Network Based on ATD Techniques, Connection-Control Protocols in a Fast Packet-Switched 192

N

Network, An Introduction to the Digital Specific Equipment Assignment System and the Computerisation of Frame Management in the Digital Trunk 238
Network Based on ATD Techniques, Connection-Control Protocols in a Fast Packet-Switched Multi-Service 192
Network, CCITT Signalling System No. 7 in British Telecom's 160
Network Evolution Using Asynchronous Time-Division Techniques 95
Network, On-Demand Interactive Video on the British Telecom Switched-Star Cable-Television 17
Network, RASE—System for Recording and Scanning Alarms in the Digital Transmission 232
Network, Tester 351B—A New Performance Tester for the Digital Transmission 120
Network, The Digital Derived Services 105
Networks, Status Monitoring on Cable TV and Broadband Data 163
New Reliability Tool for Designers, A 127
NEWTON, J. J. System 4 Automatic Radiophone 28
999 Emergency Services 58
19 GHz Radio System for Rathlin Island 70
Notes and Comments 78, 146, 213, 286

O

OAKES, B. A. Operation Skyward 177
OCKENDON, T. K., LAIRD, J. L., and HAMMOND, S. W. Status Monitoring on Cable TV and Broadband Data Networks 163
On-Demand Interactive Video on the British Telecom Switched-Star Cable-Television Network 17
Operation Skyward 177
Optical Character Recognition System in Letter Mechanisation 225
Opto-Electronic Technology, Martlesham Medal for Pioneer in 57
Overflow Meters—TOMAS, Automatic Scanner for Monitoring Traffic 132

P

Packet-Switched Multi-Service Network Based on ATD Techniques, Connection-Control Protocols in a Fast 192
Performance Tester for the Digital Transmission Network, Tester 351B—A New 120
Phosphor Printing, Advances in High-Speed 186
POWELL, R. W. Optical Character Recognition System in Letter Mechanisation 225
Press Notices, British Telecom
British Telecom to Provide Network Management for Government Telecommunications Network .. 77
BT Invention Licensed for Commercial Production 277
Business Centres Mark New Customer Policy .. 277
Databank Card 76
Electronic Yellow Pages Goes Live 76
IBM-Compatible Data Services 277
LINK Network Goes Fully Live 77
National Computer Network to Streamline International Trade 212
Radiopaging by Satellite—A Trial Service 212
Translating Speech by Computer 212
PRICE, G. R., MARSHALL, J. F., and HORNSBY, G. H. ALE—Testing to the Customer Interface 50
Printing, Advances in High-Speed Phosphor 186
Product News
Consort 283
Escort 2 + 6 80
First STEbus Modem 285
Intelligent Serial Input/Output Module for STEbus 284
Leopard Telex Terminal 145
New Facsimile Machines 144
New Lan Products 80
68000 STEbus Processor 283
STEbus Backplanes 207
TSX50 Switch System 283
Protocols in a Fast Packet-Switched Multi-Service Network Based on ATD Techniques, Connection-Control .. 192

Q

Quality—Inspection, Document 250

R

Radio System for Rathlin Island, 19 GHz 70
Radiophone, System 4 Automatic 28
RASE—System for Recording and Scanning Alarms in the Digital Transmission Network 232
Rathlin Island, 19 GHz Radio System for 70
REARDON, E. S., and BAKER, G. T. Routining of Metering-over-Junction Circuits 268
Recording and Scanning Alarms in the Digital Transmission Network, RASE—System for 232
Recovery of Cables from the River Tyne 68
REDMILL, F. J. Difficulties of Specifying Users' Requirements for Computer Systems and Methods of Mitigating Them 60
REDMILL, F. J., JOHNSON, E. A., and RUNGE, B. Document Quality—Inspection 250
Redundancy Check Procedure into the 2048 kbit/s Basic Frame Structure, Introduction of a Cyclic 218
Reliability Tool for Designers, A New 127
Remote Access System for TXE2 Exchanges 23
Requirements for Computer Systems and Methods of Mitigating Them, Difficulties of Specifying Users' .. 60
River Tyne, Recovery of Cables from the 68
River Weaver, Duct Laid Across the 138
ROBERTS, G. J. The Digital Derived Services Network 105
Routining of Metering-over-Junction Circuits 268
RUNGE, B., REDMILL, F. J., and JOHNSON, E. A. Document Quality—Inspection 250

S

Scanner for Monitoring Traffic Overflow Meters—TOMAS, Automatic 132
Scanning Alarms in the Digital Transmission Network, RASE—System for Recording and 232
Services Network, The Digital Derived 105
Services, 999 Emergency 58

75 Years of Automatic Telephony in the UK 82
Signalling System No. 7 in British Telecom's Network, CCITT 160
Skyward, Operation 177
SMITH, J. T., and DUNN, G. Tester 351B—A New Performance Tester for the Digital Transmission Network 120
Some Possible Trends in Public Telecommunications Switching 88
Specifying Users' Requirements for Computer Systems and Methods of Mitigating Them, Difficulties of 60
SPICER, C. J., and EVANS, D. Advances in High-Speed Phosphor Printing 186
Status Monitoring on Cable TV and Broadband Data Networks 163
Strowger Automatic Exchange at Epsom, The 84
Switched-Star Cable-Television Network, On-Demand Interactive Video on the British Telecom 17
Switching Centre, An Electronic Incoming Coder System for Mondial International 38
Switching, Epsom Telephone Exchange: Conversion to Automatic 86
Switching, Some Possible Trends in Public Telecommunications 88
System 4 Automatic Radiophone 28
System, LEKTOR Encryption 257
System, The Verification Test 6
System, Video Map and Imaging 139

T

Technology, Martlesham Medal for Pioneer in Opto-Electronic 57
TELECOM 87, British Telecom at 206
Telecommunications and International Finance 265
Telecommunications and Users 199
Telecommunications—Major Changes Under Way, Transport and 270
Telecommunications on Economic Growth in Developing Countries, The Impact of 35
Telecommunications Switching, Some Possible Trends in Public 88
Telephone Exchange: Conversion to Automatic Switching, Epsom 86
Telephony in the UK, 75 Years of Automatic 82
TELSTAR, 1962, Events up to 170
Test System, The Verification 6
Tester 351B—A New Performance Tester for the Digital Transmission Network 120
Testing to the Customer Interface, ALE— 50
Time-Division Techniques, Network Evolution Using Asynchronous 95
TINKLEY, J. LEKTOR Encryption System 257
TOMAS, Automatic Scanner for Monitoring Traffic Overflow Meters— 132
Tool for Designers, A New Reliability 127
Traffic Overflow Meters—TOMAS, Automatic Scanner for Monitoring 132
Transmission Network, RASE—System for Recording and Scanning Alarms in the Digital 232
Transmission Network, Tester 351B—A New Performance Tester for the Digital 120
Transport and Telecommunications—Major Changes Under Way 270
Trends in Public Telecommunications Switching, Some Possible 88
Trunk Network, An Introduction to the Digital Specific Equipment Assignment System and the Computerisation of Frame Management in the Digital 238
2048 kbit/s Basic Frame Structure, Introduction of a Cyclic Redundancy Check Procedure into the 218
TXE2 Exchanges, Remote Access System for 23

U

UBHI, D. S. A New Reliability Tool for Designers .. 127
Users' Requirements for Computer Systems and Methods of Mitigating Them, Difficulties of Specifying .. 60
Users, Telecommunications and 199

V

VALLANCE, I. D. T. Growing Up in an Information Age Address to IBTE Martlesham Heath Centre 154
Verification Test System, The 6
VICK, R., and BUTLER, J. S. ELECTRA Mark 2—A Codemark Checking Machine 181
Video Map and Imaging System 139
Video on the British Telecom Switched-Star Cable-Television Network, On-Demand Interactive 17

W

WAKELING, R. Intermail 262
WARREN, P. A. The Verification Test System 6

EDUCATIONAL PAPERS PUBLISHED IN THE SUPPLEMENT

The Purposes of Teletraffic Engineering and its Application .. .. Oct. 1987
A Guideline for Writing a System Requirements Specification for Computer Systems .. .. Jan. 1988

VOLUME 6

Part 1 (Apr. 1987) .. .. pp. 1–80
Part 2 (July 1987) .. .. pp. 81–152
Part 3 (Oct. 1987) .. .. pp. 153–216
Part 4 (Jan. 1988) .. .. pp. 217–288

Published by *British Telecommunications Engineering Journal*, 2–12 Gresham Street, London EC2V 7AG,
and printed in Great Britain by Unwin Brothers Limited, The Gresham Press, Old Woking, Surrey
